## OBJECTIVE

"I am a dedicated web developer with a strong focus on frontend development and engineering, leveraging the latest web technologies to create innovative solutions. I am passionate about crafting tools and applications that address real-world challenges and enhance user experiences. I am actively seeking new opportunities to contribute my skills, knowledge, and unwavering commitment to drive success for the team and make a meaningful impact."

## EXPERIENCE

**01/08/2022 - 30/05/2023**

**J.B. Solutions**
Junior Developer
Front-End Development (Primary Focus - React.js and Next.js):
- Proficient in React.js, including workflows like Redux and React Hooks.
- Strong knowledge of HTML, CSS, and JavaScript.
- Familiar with popular UI/UX frameworks, including Material-UI, Bootstrap, Chakra UI, React Redux, and Tailwind UI.
- Proficiency in creating responsive and user-friendly web interfaces using both React.js and Next.js.

JavaScript Language Features:
- Well-versed in ECMAScript 2015 (ES6) and its modern language features.

Back-End and General Skills:
- Familiarity with back-end technologies such as Node.js and Express.js.
- Solid understanding of RESTful web services and GraphQL.
- Acquired foundational knowledge of databases, including MongoDB and MySQL, through learning and experimentation.
- Familiarity with version control tools like Git and GitHub.

- Successfully delivered and deployed a wide range of web applications with a strong emphasis on front-end development using React.js and Next.js.
- Collaborated on diverse projects, showcasing adaptability and excellence in project management.
- Demonstrated proficiency in implementing secure authentication methods using tokens and JWT.
- Managed software changes efficiently using Git and GitHub for version control.

Communication and Teamwork:
- Excellent communication and teamwork skills, working effectively in cross-functional teams.
- Adept at problem-solving and analytical thinking, contributing to effective solutions.
- Worked on extremely varied and significant projects, showcasing adaptability and leadership in front-end development.

**19/6/2023 - Current**

**Saeculum Solutions**
Junior Developer
- Blupack:
  - Collaboratively developed and maintained the user and admin websites for Blupack
- Linked Care:
  - Worked on projects for all three Linked Care websites – doctor, admin, and user interfaces.
-Google Advertisements: Gained valuable experience in managing and optimizing Google Advertisements, contributing to successful digital marketing campaigns.

## SKILLS

- I have a strong foundation in web development, including proficiency in JavaScript (ES6+), Git and GitHub, and expertise in debugging. I'm experienced in MongoDB, Express.js, and Node.js for building server-side applications, and I'm skilled in RESTful APIs and React.js for dynamic front-end development. I'm familiar with front-end frameworks like Bootstrap and Material-UI, use server-side rendering, and excel in database management. My communication skills contribute to effective teamwork and project management.

## PROJECTS

- - Worked on Financial management/ Banking website which made use of Next js and GraphQL.
  - Worked on Job management application. In this employment is given in shifts and also had schedule management.
  - Worked on MxM news website based on Next js.
  - E-commerce Website: Create an e-commerce website using React.js, Redux, and a backend framework like Node.js.
  - To-Do List App: Build a to-do list application with React.js to manage tasks.
  - Weather App: Develop a weather application to fetch and display real-time weather data.
  - E-commerce Product Grid: Create a product grid for an e-commerce site with filtering and sorting features.
  - Blog Viewer: Build a blog viewer to fetch and display articles from an API with pagination.
  - Recipe Book: Create a recipe book application to add, edit, and browse recipes.
  - User Authentication: Implement user authentication with features like registration, login, and a user profile.
  - Task Tracker: Build a task tracking application with task management features.
